

INNOVATION IS OUR PASSION

Securecell is the trusted partner for biopharma, enabling them to bring new therapies to patients in a safe, efficient, and economical way. We innovate ground-breaking measuring and control engineering technologies to radically improve bioprocessing, medical treatment, and patient health. For more than 25 years, we have been delivering innovative solutions in bioprocess control for biotech, pharma, and academia. This expertise and experience provided the foundation for the technology transfer into the MedTech space and the development of Seraccess, a truly disruptive diabetes therapy. Continuing steadily on our sustainable innovation path and growth journey, we are looking for talented

BIOPROCESS APPLICATION SPECIALIST LUCULLUS

for **Lucullus**[®], our process information management system for bioprocess development.

As a super user for our software platform, you play an important role in customer interactions (application support, project execution) as well as documentation. The documentation includes user or technical manuals, release notes, and training material. In close collaboration with the software development and testing departments, you stay up to date on Lucullus' vast digitalization capabilities and help convert it into improved bioprocessing workflows together with our industry customers. The position offers a splendid entry into our biotech product offering with the potential to develop your role in various directions.

OUR PROFILE

- You have a bachelor's degree in biotechnology or a similar field with good knowledge of bioprocessing
- You have an affinity for IT & software and want to contribute to the digitalization and automation in the bioprocessing industry
- You like to work independently, proactively, and use your strong problem-solving abilities in a goal-oriented way while collaborating and communicating well in international and intercultural settings.
- Confident in spoken and written English language, additional languages are welcome (French, German)
- Strong communication skills and customer interaction, comfortable with frequent direct engagements.
- Preferably, you will bring experience in managing projects within an Agile framework
- Hands-on experience in the (regulated) biopharma industry is a great plus
- Programming and data science skills are welcome
- Candidates must have the legal right to work in Switzerland. Please indicate your current work authorization status

OUR OFFER

Securecell offers a highly diverse international working environment and the opportunity to collaborate with highly skilled individuals from various disciplines. Partnership and interdisciplinary collaboration are at the core of our company, our research activities, and the commercialization of our marketed products. We nurture true innovation and creative thinking to advance our research projects as well as to continuously improve our marketed products. At Securecell, you will discover a challenging job, inspiring colleagues, and a true purpose. We are looking forward to hearing from you!

Please submit your detailed curriculum vitae and additional documentation to hr@securecell.ch

Only direct applicants (not via third parties such as recruitment agencies) will be accepted.

JOB LOCATION

The position is based at Securecell BV in the Netherlands; Securecell AG is headquartered in Urdorf (Zurich), Switzerland.
